A formal document that a job applicant creates to itemize their qualifications for a position

Resume design is the structure,look and format of a resume

A way of conveying not only your skills and experience, but also who you are as a person

The goal a resume is to tell the story of your experiences as they relate to a specific job description

If you want to express your aspiration and career goals it would be best to mention them in your cover letter

It can make it look attractive and easy to read

Thinks

As a job seeker selecting a unique design for the content of your resume is essential attractive and easy to read.

The know-how, talents and experience required to be a productive designer
